

# VACANCY

The Economic Development Board [EDB] is recruiting talented Information Systems professionals to join its project implementation and operations team for the National Electronic Licensing System.

## BUSINESS PROCESS ANALYST(S)

- Understand the business context and document workflows, process inputs and outputs
- Identify new approaches and solutions for streamlining and reengineering initiatives
- Assist stakeholders to define workflows, business rules and translate into functional specifications
- Interact with business units as well as technical teams throughout the project lifecycle
- Monitor, measure and provide feedback on process performance
- Actively participate in workshops, focus groups, requirements gathering, testing and training sessions
- Potential and motivation to evolve as a team leader.

## ANALYST-PROGRAMMER(S)

- Understand functional specifications, develop process models and system specifications
- Proficiency in web application software frameworks and tools, including Java, AJAX, JSON, JS, SOAP, REST, and J2EE portal architectures
- Working knowledge of major database servers and enterprise document repositories
- Develop prototypes, web service integrations, business logic modules and modern user interfaces
- Assist Business Analysts in the translation of functional requirements into structured technical specifications
- Participate actively in Scrum and Agile practices in a team environment

## SYSTEM ADMINISTRATOR(S)

- Experience in enterprise-level IT Operations practices in a data centre environment with highly scalable systems and virtualization platforms
- Proactively monitor system performance, identify and investigate system issues and propose corrective actions
- Efficiently handle service requests from a diversity of stakeholders prioritise and escalate to the IT Operations Manager if required.
- Maintain a system of records and adhere to security policies, standards and procedures
- Working knowledge of Unix-based OS, network architectures, firewalls, load-balancing, DB Admin, IAM and Cloud Services would be a definite advantage

## QUALIFICATIONS AND EXPERIENCE

Candidates should have, at a minimum, a university degree in information systems, information & communications technologies, business process management, engineering, or equivalent which is relevant to the specific position.

Candidates should be able to demonstrate at least 2 years' experience as practitioners on the specific job function in a corporate, government, or equivalent environment.

Professional certifications which are related to the above job functions and in good standing at the time of application shall constitute an advantage.

## MODE OF APPLICATION

If your qualifications, experience and interests correspond to these challenging job profiles, please submit your motivation letter together with your CV to [hr@edbmauritius.org](mailto:hr@edbmauritius.org) before 6 pm on Monday 20th August 2018.

**Applications received after the closing date will not be considered. Only the best candidates will be called for interview. The EDB reserves the right not to make any appointment as a result of this advertisement.**

**03 August 2018**
